

**Re: KPD/090610 Complete dyeing – finishing of knits in tubular and openwidth form**

- ✓ Total capacity of dyeing machines per batch: 2.500 kgs fabric
- ✓ Total dyeing capacity per day – assuming 3.5 batches average per day – 9.000 kgs fabric

- No. 1 **HT baby dyeing machine SCLAVOS, mod. Apollon HTSF-B, year 1999**, 1 port, cap. 50 Kgs fabric, 1 chem. add. tank, controller ATC 304
- No. 1 **HT dyeing machine SCLAVOS, mod. Apollon HTSF1, year 1999**, 1 port, cap. 180 Kgs fabric, 1 chem. add. tank, controller SEDOMAT 2000, seam detector SD2003
- No. 1 **HT dyeing machine SCLAVOS, mod. Apollon HTSF3, year 1997**, 3 ports, cap. 540 Kgs fabric, 1 chem. add. tank, controller SEDOMAT 2000, seam detector SD2003
- Nos. 2 **atmospheric dyeing machine SCLAVOS, mod. Apollon TSF3-L, year 1999**, 3 port each, cap. 540 Kgs fabric each, 1 chem. add. tank each, controller SEDOMAT 2000, seam detector SD2003
- No. 1 **atmospheric dyeing machine SCLAVOS, mod. Apollon TSF3, year 1991**, 3 port, cap. 360 Kgs fabric, 1 chem. add. tank, controller ZELLA PC1001
- No. 1 **atmospheric dyeing machine MINOX, year 1984**, 4 ports, cap. 400 Kgs fabric, horizontal type
- No. 1 **double padder for tubular fabrics HELIOT, mod. EXP146, year Dec. 2003**, w.w. 120 cms, with 2 sets of 2 squeezing rollers each, for squeezing and chemicals application, with automatic turntable HELIOT typ. PLAQUE TOURNANTE, year 2003, with automatic detwister
- No. 1 **centrifuge C.I.M.A., mod. CIMA1500S, year 1987**, cap. 200 Kgs fabric, 720 rpm, with loading reel FERRARO, mod. CSC, year 1987
- No. 1 **rope squeezer – slitter – opener SAMIT, year May 2002**, automatically driven turntable, squeezing unit in rope form, cutter automatically driven by photocell E+L mod. ELCUT, automatic detwister E+L, fabric straightener E+L mod. ELROLLER, w.w. 240 cms.
- No. 1 **high efficiency jet drying tensionless machine RUCKH, mod. HDT 2000-V/1, year 1991**, front-in and outfeed machine, w.w. 250 cms, gas heated, 55 KW, with inverters, heat recovery unit, drying capacity 250 – 300 Kgs fabric / hr
- No. 1 **tensionless relax dryer ALEA, mod. CA/87, year 1991**, w.w. 240 cms, 2 chambers of 3 mtrs length each, steam heated (can be converted to oil heated by replacing one steam valve with triode valve), stainless steel conveyor, drying capacity 450 – 500 Kgs fabric / hr
- No. 1 **tubular compactor FERRARO, mod. COMPTX/FV, year 1997**, w.w. 140 cms, steam heated, antistatic bars, precision plaiter
- No. 1 **stenter ARTOS, year 1984, 3 chambers**, gas heated, horizontal chain with pins, with entry frame with straightener BIANCO, mod. Guida Compact CE, year 1996, 2 bowl padder, weft straightener E+L FR1501, elephant ears E+L, selvage gumming & trimming, cooling zone at exit, fabric delivery in rolls, A-frame and pleats
- No. 1 **steam boiler STANDARDKESSEL, year 1992**, production 6T/hr steam, 10 bars, with burner SAACKE, twin, suitable for natural gas & heavy fuel
